DESIGNER FLOWERS

at THE NATURAL HISTORY MUSEUM

Designer Flowers have been designing flowers for parties, events and weddings for two decades and is now celebrating its 20th anniversary in floral design.

We hope in this brochure we have been able to reflect the atmosphere and mood of our floral designs in their formal party backdrop and some of the venues where designer flowers work.

At Designer Flowers, we offer a personal consultation service, where we pride ourselves on our level of service and commitment to both corporate clients and venues.

The team at Designer Flowers would be delighted to help you plan the design, style and concept for your party, event or wedding flowers. We will also provide you with a complimentary quotation with photographs.

We have created a gallery of information on our new website, enabling you to experience the range of floral designs that we are able to offer you.

Designer Flowers are based in North London and also have, a flower shop, situated, within, the London Hilton Hotel on Park Lane (where a separate bespoke brochure of our designs, with in the London Hilton, is available upon request).
